**Watershed Fish Technician II**  
**Fisheries-FRMP**  
**Department of Natural Resources**  
**Hourly Wage: \$14.56/Temporary/Part-Time**  
**Location: Toppenish, WA**

Employee is responsible to assist in all facets of implementing the Yakama Reservation Watershed Project (YRWP). Tasks include providing assistance in restoration projects and monitoring networks.

**Knowledge, Skills and Abilities:**

- Ability to carry out field activities with minimal supervision.
- Ability to collect field data and neatly and accurately according to protocol.
- Ability to learn and employ specific terminology and techniques in compiling field data.
- Ability to follow written and oral instructions.
- Ability to read pertinent literature dealing with field methods.
- Ability to use hand and power tools (e.g. shovel, chain saw).
- Ability to learn and use monitoring equipment to measure temperature, precipitation and stream flow.
- Ability to apply basic computer skills.

**General Recruiting Indicators:**

- High school diploma or equivalent is required AND one year experience as a Watershed Technician I or equivalent level in natural resources field work preferred.
- Demonstrated capacity to work independently or as a crew member.
- Familiarity of the Satus, Ahtanum, Toppenish, and Simcoe Creek Watershed preferred but not required.

**Necessary Special Requirements:**

- Physically able to work in remote areas under a wide range of weather conditions. (job requires an employee to walk over 15 stream miles a week for 3 months and hike 45 to 75% hill slopes, also requires building fence in remote areas which requires hiking and carry over 50 lbs.)
- Must have a valid Washington State Driver License and ability to obtain a Tribal Drivers Permit.
- Required to pass a pre-employment drug and alcohol test.
